Athens, 12 December 2014

A.D.E.D.Y. and the workers in the Hellenic public sector express our support and solidarity with the Italian workers who are carrying out a general strike on 12th December.

The workers in Italy like the Greek workers fight against the policies of austerity, the cut of their incomes, the redundancies, the flexible labor relations and the deterioration of public social goods.

The struggle of the workers in each country but also the joint and coordinated struggle of the European workers as well, is the only hope for the overthrow of unpopular policies, for overcoming the crisis in the interest of the workers and the peoples.

With our best wishes for a successful strike!

From the Executive Committee of A.D.E.D.Y.
